PRODUCT DATA SHEET

CT 16

Professional machine for 16 mm drain-cleaning cable (cleaning spiral)

The CT 16 is a lightweight professional drain-cleaning machine designed exclusively for 16 mm cleaning cable. It is powered by a 250 W motor. Its 1000 rpm speed enables fast and efficient cleaning. Weighing only 15 kg, the machine features an integrated LED work light and an upper tool tray.

KEY BENEFITS

250W — **250 W motor**
Controlled load response

1000 — **1000 rpm**
Fast, efficient cleaning

Ø16 — **16 mm cable**
Optimized for this cable size

15kg — **Only 15 kg**
Easy to carry upstairs

LED — **LED and tool tray**
No need to rely on a headlamp

RECOMMENDED APPLICATIONS

Upper-floor jobs	At only 15 kg, the machine is easy to carry upstairs and through buildings.
16 mm cable cleaning	Professional mechanical drain cleaning with 16 mm cleaning cable.
Confined or poorly lit sites	The integrated LED and upper tool tray help keep work organized.

IMPORTANT COMPATIBILITY INFORMATION

Compatible cable: 16 mm cleaning cable only
Smaller cables: not recommended
CTG-10 adapter: not recommended for this machine
Equipment: integrated LED work light and upper tool tray

Do not use with smaller cables or the CTG-10 adapter. Check the exact package contents before ordering.

OPERATING NOTE

Use the machine only with 16 mm cleaning cable. Smaller cables and the CTG-10 adapter are not recommended. If the cable encounters high resistance and the motor stalls, switch the machine off immediately, relieve the load, and only then resume work. Always select the cleaning head to suit the pipe material and condition.
