PRODUCT DATA SHEET

CTG-10

Machine adapter for 10 mm drain-cleaning spirals

The CTG-10 machine adapter was developed for the CT 103 drain-cleaning machine and is designed exclusively for a 10 mm cleaning spiral with a length of 10 m. Its aluminium construction is fully serviceable, with every component repairable or replaceable. A stainless-steel cleaning spiral is recommended to minimise corrosion.

KEY BENEFITS

CT103 — **Designed for CT 103**
Purpose-built connection

Ø10 — **10 mm spiral only**
Engineered for this size

10m — **10 m cleaning spiral**
Machine-powered operation

ALU — **Aluminium construction**
Durable and serviceable

SERV — **Repairable components**
Every part replaceable

OPERATING NOTE

The CTG-10 adapter was developed for the CT 103 drain-cleaning machine. Use only with a 10 mm cleaning spiral measuring 10 m; it is not suitable for 8 mm spirals. A stainless-steel spiral is recommended to minimise corrosion. It is also compatible with Rothenberger machines; however, always contact our customer service team before ordering to confirm the correct connection configuration.
