PRODUCT DATA SHEET

CTK-10

Cordless-drill-powered drain-cleaning machine

The CTK-10 drain-cleaning machine is powered by a cordless drill, so no mains power supply is required. It accepts 8, 9 or 10 mm drain-cleaning cables in lengths of 8 or 10 m. Its aluminium construction is fully serviceable, with every component repairable or replaceable. The drive drill is not included.

KEY BENEFITS

DRILL — **Cordless drill drive**
No mains power required

Ø8-10 — **8, 9 and 10 mm cables**
Three available diameters

10m — **8 or 10 m cable**
Two working lengths

ALU — **Aluminium construction**
Durable and serviceable

SERV — **Repairable components**
Every part replaceable

RECOMMENDED APPLICATIONS

Mains-independent work	Operates with a cordless drill without access to a mains supply.
Multiple cable diameters	For drain cleaning with 8, 9 or 10 mm cleaning cables.
Serviceable construction	Repairable and replaceable components for long-term use.

OPERATING NOTE

A suitable cordless drill is required to drive the CTK-10 and is not included in the package. Cordless operation allows the machine to be used without access to a mains power supply. It accepts 8, 9 or 10 mm drain-cleaning cables in lengths of 8 or 10 m. A stainless-steel cable is recommended to minimise corrosion.
