PRODUCT DATA SHEET

HT 6-15

Compact, cordless-drill-powered pipe-cleaning system

The HT 6-15 is a compact pipe-cleaning machine with a robust steel frame, designed for 32-70 mm pipes. Its 15 or 20 m cleaning cable is powered by a cordless drill, allowing operation without a mains power supply. Chain knockers and scraper heads support wall-to-wall mechanical cleaning. The 12 kg system can also be used with a pipe inspection camera.

KEY BENEFITS

- **Ø** — **For 32-70 mm pipes** — Small and medium pipework
- **20m** — **15 or 20 m cable** — Two working lengths
- **12kg** — **12 kg machine weight** — Easy jobsite transport
- **DRILL** — **Cordless drill drive** — Battery-powered operation
- **CAM** — **Camera compatible** — Controlled, documentable cleaning

RECOMMENDED APPLICATIONS

Routine maintenance	Regular cleaning and deposit removal in 32-70 mm pipes.
Blockage removal	Chain knockers and scraper heads for stubborn contamination and deposits.
Camera monitoring	The cleaning process can be monitored and documented with an inspection camera.

SYSTEM CONFIGURATION

Working length: 15 or 20 m
Drive: cordless drill (not included)
Cleaning heads: chain knockers and scraper heads
Construction: robust steel frame, portable, 12 kg

The drive drill is not included. Check the exact package contents before ordering.

TECHNICAL SPECIFICATIONS

Detailed technical data

Specification	Value
Product type	Cordless-drill-powered pipe-cleaning machine
Recommended pipe diameter	32-70 mm
Cleaning cable length	15 or 20 m
Drive	Cordless drill (not included)
Construction	Robust steel frame
Weight	12 kg
Cleaning heads	Chain knockers and scraper heads
Cleaning method	Mechanical wall-to-wall pipe cleaning
Camera compatibility	Can be used with a pipe inspection camera
Power supply	No external mains power required
Applications	Maintenance, blockage removal, industrial cleaning
Design	Compact and portable
Warranty	1 year
